Please provide the conversation history! I need the content of the conversation to be able to summarize it for you.

Once you provide `{{conversationHistory}}`, I will:
1. **Identify the main topic(s)** and purpose of the discussion.
2. **Extract key arguments, issues, or challenges** raised by participants.
3. **Note any decisions made, conclusions reached, or solutions proposed.**
4. **List specific action items, next steps, or responsibilities** assigned to individuals (if any).
5. **Highlight any important details** such as dates, names, or specific constraints that impact the outcome.
6. **Condense this information** into a clear, concise summary that captures the essence of the conversation.
